Item 5.07. Submission of Matters to a Vote of Security Holders

At a virtual special meeting of the stockholders of Sunrun Inc., a Delaware corporation (“Sunrun”) held on October 1, 2020 (the “Sunrun virtual special meeting”), Sunrun’s stockholders voted on the proposals set forth below relating to the previously announced acquisition of Vivint Solar, Inc., a Delaware corporation (“Vivint Solar”), pursuant to the Agreement and Plan of Merger (the “Merger Agreement”), dated as of July 6, 2020, by and among Sunrun, Vivint Solar and Viking Merger Sub, Inc., a Delaware corporation and direct wholly owned subsidiary of Sunrun (“Merger Sub”), pursuant to which Merger Sub will merge with and into Vivint Solar, with Vivint Solar continuing as the surviving corporation (the “Merger”). The proposals are described in detail in the definitive joint proxy statement/prospectus filed by Sunrun with the SEC on September 2, 2020 and first mailed to Sunrun’s stockholders on September 2, 2020. The final voting results regarding each proposal are set forth below. There were 126,894,221 shares of Sunrun common stock outstanding and entitled to vote as of the close of the business on August 31, 2020, the record date for the Sunrun virtual special meeting, and 103,079,517 shares of Sunrun common stock were represented in person or by proxy at the Sunrun virtual special meeting, which number constituted a quorum.

Proposal 1: Approval of the Sunrun Share Issuance

Sunrun’s stockholders approved the issuance of Sunrun common stock, par value \$0.0001 per share, to Vivint Solar stockholders in connection with the Merger contemplated by the Merger Agreement (the “Sunrun share issuance proposal”). The Sunrun share issuance proposal was approved by the Sunrun stockholders by the votes set forth in the table below:

For	Against	Abstain	Broker Non-Votes
103,009,265	33,219	37,033	—

Proposal 2: Adjournment of the Sunrun Virtual Special Meeting

Sunrun’s stockholders approved the proposal to adjourn the Sunrun virtual special meeting, if necessary or appropriate, to solicit additional proxies in the event there are not sufficient votes at the time of the Sunrun virtual special meeting to approve the Sunrun share issuance proposal (the “Sunrun adjournment proposal”). The Sunrun adjournment proposal was approved by Sunrun stockholders by the votes set forth in the table below:

For	Against	Abstain	Broker Non-Votes
99,239,210	3,773,315	66,992	—

Because the Sunrun share issuance proposal was approved, it was unnecessary to adjourn the Sunrun virtual special meeting for the purpose of soliciting additional proxies.

Forward-Looking Statements

This communication contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 including, but not limited to, statements based upon or relating to Sunrun’s and Vivint Solar’s expectations or predictions of future financial or business performance or conditions. Forward-looking statements generally relate to future events or future financial or operating performance. In some cases, you can identify forward-looking statements by terms such as “may,” “will,” “should,” “would,” “expects,” “plans,” “anticipates,” “could,” “intends,” “target,” “projects,” “contemplates,” “believes,” “estimates,” “predicts,” “potential,” “will be,” “will likely result” or “continue” or the negative of these words or other similar terms or expressions that concern our expectations, strategy, plans or intentions. Forward-looking statements may include, but are not limited to, statements concerning the expected benefits of the transaction; cost synergies and opportunities resulting from the transaction; Sunrun’s leadership position in the industry; the availability of rebates, tax credits and other financial incentives including solar renewable energy certificates, or SRECs, and federal and state incentives; regulations and policies related to net metering and interconnection limits or caps and decreases to federal solar tax credits; determinations by the Internal Revenue Service of the fair market value of Sunrun’s and Vivint Solar’s solar energy systems; changes in regulations, tariffs and other trade barriers and tax policy; the retail price of utility-generated electricity or electricity from other energy sources; federal, state and local regulations and policies governing the electric utility industry and developments or changes with respect to such regulations and policies; the ability of Sunrun and Vivint Solar to manage their supply chains (including the availability and price of solar panels and other system components and raw materials) and distribution channels and the impact of natural disasters and other events beyond their control; the ability of Sunrun and Vivint Solar and their industry to manage recent and future growth, product offering mix, and costs (including, but not limited to, equipment costs) effectively, including attracting, training and retaining sales personnel and solar energy system installers; Sunrun’s and Vivint Solar’s strategic partnerships and expected benefits of such partnerships; the sufficiency of Sunrun’s and Vivint Solar’s cash, investment fund commitments and available borrowings to meet anticipated cash needs; the need and ability of Sunrun and Vivint Solar to raise capital, refinance existing debt and finance their respective obligations and solar energy systems from new and existing investors; the potential impact of interest rates on Sunrun’s and Vivint Solar’s interest expense; the course and outcome of litigation and investigations and the ability of Sunrun and Vivint Solar to consummate the transactions contemplated by the definitive transaction agreement in a timely manner or at all. These statements are not guarantees of future performance; they reflect Sunrun’s and Vivint Solar’s current views with respect to future events and are based on assumptions and estimates

and subject to known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements to be materially different from expectations or results projected or implied by forward-looking statements. These risks include, but are not limited to: the occurrence of any event, change or other circumstances that could give rise to the termination of the definitive transaction agreement or the failure to satisfy the closing conditions; the possibility that the consummation of the proposed transactions is delayed or does not occur, including the failure of the parties' stockholders to approve the proposed transactions; uncertainty regarding the timing of the receipt of required regulatory approvals for the Merger and the possibility that the parties may be required to accept conditions that could reduce or eliminate the anticipated benefits of the Merger as a condition to obtaining regulatory approvals or that the required regulatory approvals might not be obtained at all; the outcome of any legal proceedings that have been or may be instituted against the parties or others following announcement of the transactions contemplated by the definitive transaction agreement; challenges, disruptions and costs of closing, integrating and achieving anticipated synergies, or that such synergies will take longer to realize than expected; risks that the Merger and other transactions contemplated by the definitive transaction agreement disrupt current plans and operations that may harm the parties' businesses; the amount of any costs, fees, expenses, impairments and charges related to the Merger; uncertainty as to the effects of the announcement or pendency of the Merger on the market price of the parties' respective common stock and/or on their respective financial performance; uncertainty as to the long-term value of Sunrun's and Vivint Solar's common stock; the ability of Sunrun and Vivint Solar to raise capital from third parties to grow their business; any rise in interest rates which would increase the cost of capital; the ability to meet covenants in investment funds and debt facilities; the potential inaccuracy of the assumptions employed in calculating operating metrics; the failure of the energy industry to develop to the size or at the rate Sunrun and Vivint Solar expect; and the inability of Sunrun and Vivint Solar to finance their solar service offerings to customers on an economically viable basis. These risks and uncertainties may be amplified by the ongoing COVID-19 pandemic, which has caused significant economic uncertainty and negative impacts on capital and credit markets. The extent to which the COVID-19 pandemic impacts Sunrun's and Vivint Solar's businesses, operations, and financial results, including the duration and magnitude of such effects, will depend on numerous factors, many of which are unpredictable, including, but not limited to, the duration and spread of the pandemic, its severity, the actions to contain the pandemic or treat its impact, and how quickly and to what extent normal economic and operating conditions can resume.

Unless required by federal securities laws, Sunrun and Vivint Solar assume no obligation to update any of these forward-looking statements, or to update the reasons actual results could differ materially from those anticipated, to reflect circumstances or events that occur after the statements are made. Given these uncertainties, investors should not place undue reliance on these forward-looking statements. Investors should read this document with the understanding that Sunrun's and Vivint Solar's actual future results may be materially different from what Sunrun and Vivint Solar expect. Sunrun and Vivint Solar qualify all of their forward-looking statements by these cautionary statements.
